

Aug. 1st.

The Vicki & Jim.

How are things going back there? Jim  
making plans for his trip to  
California by now? Hard to believe its  
the first of August already - we have  
beautiful Red Haven on the stand now -  
about 8 to 10 days early this year - its  
been much warmer earlier in the season  
this summer so hence earlier peaches -  
the crop is considerably lighter and  
they are quite large - Wish I could send  
you some! Franice helps pack in  
boxes and baskets before I get home  
at 10:00 - She feeling pretty well  
again now after her spring bout with  
contaminated well water -

Our Grandchild family reunion in  
the city park was a big success and  
we decided to do it every year - or at  
least every other year - there were around  
80 present and of course not all made  
it by any means - Kevin was the only  
little fella there and was so good! They  
rented a plane and flew up for the last  
steering over till Monday a.m. - His first  
long length flight with the family - Took  
about 9 min. - I see I'm out of space - Will  
soon - Do you think you'll be out this month  
too Vicki? Take care - Love, Mom & Dad.
